

Abel Monitor 2017: investment management

50 UK investment management brands ranked: Where do you sit?

We reveal the results exclusively at our Abel Monitor event. This is your invitation.

Frank, Bright & Abel is a brand communication consultancy with a lot of experience in the investment management space. We have recently conducted a research project focussed on the effectiveness of the brands and communications of 50 UK investment management firms. We have done this in conjunction with industry specialists and are now ready to share the results.

Join us to see where your brand appears in the rankings and why. All attendees will receive a comprehensive report detailing our findings. We look forward to welcoming you.
